Horizon Behavioral Health Opens Wellness Treatment Center

Lynchburg, VA – Horizon Behavioral Health is opening the doors of its' new Horizon Wellness Treatment Center at 2225 Langhorne Road, Lynchburg, Virginia 24501. At this location, individuals can receive substance use treatment through the evidence-based Office Based Addiction Treatment (OBAT) program. This program provides opioid assistive treatment with prescribed suboxone for up to 60 individuals at one-time for the first three months of the program. As a part of this transition, the Horizon Wellness Center at Court Street, located in downtown Lynchburg, is no longer receiving clients for clinical appointments.

For 19 unwavering years, the Courtland building has graced the Lynchburg City skyline with rich history and purpose as a destination for many of Horizon's behavioral health treatment services. In that time, the Courtland building has served approximately 450 individuals each month without interruption. Horizon has expanded over the years to now include nine wellness centers located in Central Virginia, four of which are now located within the Lynchburg City limits, ready to serve the residents in the City of Lynchburg and the surrounding area.

“Ultimately, the best interest for our community, clients, and the future growth of Horizon, lies at the heart of the decision to relocate the services formerly provided at the Horizon Wellness Center at Court Street. We will continue to look ahead and embrace change that will improve the quality of and access to caring services that Horizon provides to our clients and community.” says Melissa Lucy, Chief Executive Officer at Horizon.

In line with this transition, clients who formerly received in-person services at the Horizon Wellness Center at Court Street will transition their future appointments to the Wellness Centers at [Landover](#), [Langhorne](#), and [Lansdown Place](#) as well as the new [Horizon Wellness Treatment Center](#).
